

The Brink's Company Global Anti-Money Laundering Statement

The Brink's Company ("the Company" or "Brink's") is committed to the global fight against money laundering and terrorist financing by ensuring, to the best of its ability, compliance with all applicable anti-money laundering and counter-terrorism financing laws and regulations, including those administered by the United States, the European Union and its member states, the United Kingdom, and the laws and regulations of other jurisdictions where Brink's operates (collectively, "AML Laws"), and is guided by the principles enumerated in the recommendations and standards promulgated by relevant international bodies such as the Financial Action Task Force ("FATF") and the Financial Action Task Force of Latin America ("GAFILAT"). Brink's has adopted this Global Anti-Money Laundering ("AML") Statement to underscore its commitment to the Company's global AML compliance. It is the policy of Brink's that all Brink's officers, directors, employees, agents and contractors, wherever located, comply and conform their activities with AML Laws applicable to Brink's global operations. Adherence to this Global AML Statement reflects the Company's core values and is essential to meet the expectations of the Company's shareholders, Board of Directors, and customers.

Money laundering is generally defined as engaging in unlawful acts that are designed to conceal or disguise the true origin of criminally derived proceeds so that the unlawful proceeds appear to have been derived from legitimate sources or constitute legitimate assets. **Terrorist financing** may not involve the proceeds of criminal conduct, but rather may involve an attempt to conceal the origin or intended use of the funds, which will later be used to provide financial support and funding for terrorism or for other criminal purposes.

To combat money laundering, terrorist financing, and other illegal activity, Brink's has implemented various controls, including:

- Conducting due diligence to better understand the potential money laundering and terrorist financing risks presented by the Company's customers and other counterparties globally, in accordance with AML Laws;
- Providing training to employees globally on the prevention and detection of money laundering and terrorist financing, as well as this Global AML Statement;
- Reporting unusual customer activity for additional review and investigation by qualified individuals in the Company's Ethics & Compliance organization; and
- Conducting internal testing and auditing of Brink's AML policies and procedures.

Brink's will continue to maintain and implement controls and safeguards to prevent the use of its operations for money laundering or any activity that facilitates money laundering or the funding of terrorist or criminal activities.
